### REPUBLICANS ATTEND.

There will be a meeting of the Republican Executive Committee, at the office of the Hon. J. C. F. Smith, at 10 o'clock, this morning. The meeting is for the purpose of making nominations for Mayor, Aldermen and Councilmen for the year ensuing. A general attendance of Republicans is requested. By order  
REPUBLICAN EXECUTIVE COMMITTEE.

### Providence Finances.

Our Providence neighbors, according to the Journal, are getting ahead, in one respect, at a rate decidedly more rapid than pleasant—we mean in the increase of their municipal expenses. Their population, which, in 1850, was 41,513, has probably increased from 7,000 to 10,000 since that time; while the cost of the city government has been considerably more than trebled during the same period, rising from \$170,000 to \$413,000 per annum, and has been one year as high as \$740,000!

The aggregate salaries of the city officers have advanced from \$9,000 to \$21,000; the police expenses are increased fully threefold; the lighting of the streets costs seven times as much as it did in 1850; the continuing expenses have risen from \$6,100 to \$32,400; and miscellaneous charges, which were less than \$700 in 1850, are now added to the enormous aggregate of \$56,000! The rate of taxation has consequently been raised fifty per cent., and still the city debt has run up from \$104,000 to the handsome sum of \$723,000.

These facts will probably have surprised some folks, and very possibly tended to provoke others; and though there is no difficulty in seeing "where the money goes," it will be an interesting study for the tax-payers of Providence to ascertain what particular need there is of such an enormous outlay by their municipal agents—such a gross and wholly unreasonable addition to the recent cost of their city government.

That the city of New York and the federal government have enormously and needlessly increased their respective expenses of late years, is sufficiently notorious;—but not more so than the fact that in both cases the extra burdens have been cast upon the people by the agency of selfish and unprincipled politicians and gross maladministration of public affairs. A vast increase of offices, and a large addition to the salaries of many of those previously existing, for the reward of party services often of the basest kind—these are the fruitful sources of those aggravated burdens under which the people complain of New York and Washington. How is it at Providence?

Runaway machines, like runaway horses, end in a smash-up and she advises girls to hang down or poison themselves, rather than elope.

Lola's advice is pretty strong meat, but she is not far out of the way in her view of the general impropriety of "runaway machines." They are very apt to turn out dishonestly. Dutiful girls, who marry with the approbation of their parents, stand by for the best chance of happiness.

We clip the following article from the New Bedford Standard of the 14th inst. Father Webb was for several years pastor of the Methodist church in this city, and these remarks will undoubtedly be read with interest by our citizens:

FATHER WEBB MEETING IN FOURTH STREET CHURCH.—The meeting at the Fourth Street Methodist Church on Tuesday evening, was well attended, and several of the former pupils of Father Webb were present. After the preliminary exercises, Father Webb arose. The opening part of his discourse was as follows:

"There is a spot, a bright gem of the ocean, famed for the fertility of its soil, the salubrity of its climate, and the sociality of its inhabitants. That spot is Newport, on the Island and in the State of Rhode Island and Providence Plantations. And this brief description of that spot, may assist him in his little variation, to a very considerable part of the State.

If you will indulge a man of grey hairs in a little egotism, I will now say that in the prime of my life, with a young, rising family, I was introduced to that remarkably pleasant place, where I spent fourteen years of the best part of my days as a minister of the Gospel and a teacher of children and youths, with much satisfaction to myself, and I trust to the improvement of some in literature and religion. My attachment to that place is the greater, for the reason that four of my children were born there, and the remains of four are in the congregation of the dead, at the head of Thames street. I am now far advanced in life, being eighty years old this day, and would say with the Psalmist David, that 'goodness and mercy have followed me all my days,' and with him devoutly pray, 'Cast me not off in the time of old age; forsake me not when my strength faileth.' O God, be not far from me! O my God, make haste to help me! O God, thou hast taught me from my youth; and hitherto have I declared thy wondrous works. Now, also, when I am old and grey-headed, O God forsake me not, till I have showed thy strength unto this generation, and thy power to every one that is to come."

I am not a Rhode Islander by birth, having first breathed the air of the island of steady habit, yet I claim to be a Cousin German, and almost an adopted son of the United States of America. For these reasons, I understand, I have been selected by the good and daughters of Rhode Island, and especially by a few of my former hear-

ers and scholars who still survive, to address you, which I have consented to do. It is a special privilege indeed for a minister so old, and the scholars and parishioners along to 60 and 70 years of age, to meet under circumstances so favorable. You will not expect a discourse on party politics, nor an oratorical display on any subject. In the application which was made to me, it was said, 'Give us some good advice.'

Father Webb then announced as his text, 1 Samuel, 12: 23, 24. "I will teach you the good and the right way; only fear the Lord, and serve him in truth with all your heart; for consider how many great things he hath done for you."

He noticed what the Lord had done for us as inhabitants of the world, and as a nation, and enforced earnestly the duties incumbent on us towards our Creator. His closing advice was for every one to "fear the Lord and keep his commandments," as the sure means of securing happiness and immortal life.

Although Father Webb has passed the term of years usually allotted to man, he presents few symptoms of bodily decay, and his mind appears to be in full vigor. His hair is entirely white, his form erect, and his voice strong and firm. He bids fair to survive many years.

After Father Webb had concluded, remarks were made by Messrs. J. S. Tillinghast, Henry Wilcox, Wm. H. Taylor, Benj. Pitman and Nathaniel Richmond. A few remarks were also made by a Mrs. Simmons, an aged colored woman, one of Mr. Webb's former pupils, but in so low a tone as to be inaudible where we sat. All the speakers concurred in bearing testimony to Father Webb's fidelity and uprightness, and many interesting reminiscences of former years were brought up. A collection was taken up and the meeting closed with a doxology. The singing, under the direction of Mr. S. P. Tischer, was performed in excellent style.

Father Webb is stationed for the ensuing year, at Barnstable, being the third year of his serving the church there. This favor, which is contrary to the rules of the denomination, was granted in consideration of Father Webb's age and faithful service.

Father Webb has been the guest of Col. Hatch, during his stay in this city. He attended the union prayer meeting at Mr. Craig's church this morning, and spoke in a very interesting manner, and afterwards received the hearty congratulations of the friends present, entirely irrespective of sect. Joseph S. Tillinghast, Esq., of this city, this morning placed in the hands of Father Webb, the sum of \$100, as a token of respect and esteem from his former pupils and from his many friends in this city.

### LOCAL NEWS, &c.

We had a most unexpected but welcome serenade on Friday night last, from a delegation of the Newport Musical Institute, under the leadership of Mr. Tourjee. Several beautiful musical compositions were most delightfully rendered and the sweet strains of Wilson's flute, together with the deep tone and light touches of the string instruments, blended delightfully with the glad and merry voices which joined in the chorus. After which as the songsters absolutely refused to partake of our hospitality we were obliged to listen to a composition not quite so musical but full of wit and humor in their soft embrace.

We would call attention to the advertisement of the Republican Executive Committee, for a meeting this evening, and hope there will be a full attendance. Every man is interested in the ward nominations, and should be on hand.

### Liberia College.

Buildings for a college costing some 20,000 dollars are now nearly completed near Monrovia in the colored Republic in Africa towards the object. The "Trustees of donations for Education in Liberia" in Massachusetts have in their hands about \$30,000, the N. Y. Colonization Society \$52,000, and the executors of the late Anson Phelps of N. Y. \$50,000. Let the intelligent colored youths of the north take note of this and hasten to cast in their lot with the people of Liberia, and then build up their fortunes and a name, and shed light, joy and peace around them, in a land hitherto "meeted out and trodden under foot" but which "shall soon stretch out her hands to God."

How to SAVE GAS.—An observance of the following direction by a correspondent of the Cincinnati Commercial, may save money to consumers, a matter worth looking after in these hard times:—"The high pressure in the main pipes, if allowed to go unchecked to the burners' valves, will consume much larger quantity of gas than they otherwise would, even if it is regulated at the corner valves. The proper place to regulate is the main valve near the meter, which should be shut off until the burners are just right, with their valves open full. By this means all our burners will be uniform, and the lights will be as good with two-thirds of the main valves open, as they would turned on full. Look to your main valves every time the collector goes to the meter. This information came from an experienced gas manufacturer after he had sold out."

BUSINESS PROSPECTS.—We learn from New York and other parts of the country that business of all kinds is reviving, and we now consider the prospect of a good visiting season here very fair for the coming summer. In the meantime our hotel and boarding house keepers are making their preparations to accommodate visitors, and getting everything in readiness to open at the usual time. We shall, when the season becomes a little further advanced, proceed to make our usual notice of the principal Hotels and Boarding-houses. If the proprietors will take a little pains to furnish us with the programme of their arrangements for the summer, we shall be enabled to do better by them than if left to search everything out for ourselves.—Saratoga Press.

A new dish for epicures was presented at a dinner table in Philadelphia, a few days since—eggs fried in butter with their shells. The dish was invented by a young lady from Ireland, who said she could do anything, "and a date besides."

## ALPINE HAIR BALM

Restoring Grey Hair to its original Color.

Warranted to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the hair, which passes through the hair and gives a natural color without the use of Hair Dye.

It keeps the hair from falling out. Mr. Mason, Sir—I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their original, but has given them a glossy hue, which before they never had.

Providence, May 20, 1857.

C. A. P. Mason, Dear Sir—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling out, but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. It every gray haired skeptic would try it, they would soon become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESCOTT, 227 Westminster street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

My dear Sir—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and easy.

Very respectfully, SARAH LYON. Providence, May 20, 1857.

### NEW THIS MORNING.

TO THE CITIZENS OF RHODE ISLAND.

GRAVEL, GOUT, RHEUMATISM, DROPSY, KIDNEYS AND BLADDER, DYSPENSIA, FEVER AND AGUE, WOLFE'S CELEBRATED SCHNAPPS AROMATIZED SCHNAPPS.

This medicinal beverage is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own factory. It is the pure Tincture from the Italian Juniper Berry whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor & aroma, altogether transcendent in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 6,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, and Bladder and Kidney Complaints. Put up in Quart and pint Bottles, in cases of one dozen quarts, and cases of two dozen pints, and for sale by all the Druggists and Country Merchants.

BY TELEGRAPH.

FROM WASHINGTON.

To the Associated Press.

Washington, Saturday, April 17 1885.

The Committee of Conference of the Kansas bill met this morning. Mr. Stephens was absent, as at the previous meeting. All the others were present. The matter of disagreement of the two branches was considered; but nothing transpired showing any probability of an agreement. The next and final meeting of the Committee will be held on Monday.

A general order has been issued by the Commander-in-Chief, directing particularly the movements of troops from the barracks at Newport, Jefferson and Carlisle, and from Forts Columbus and Randall, to Utah, at the earliest notice. General Smith is appointed to the command of the Department at Utah; and Brigadier-General Hurley and Johnston to command according to their brevet ranks. Colonel Lee succeeds to the command of the Department of the West. Col. and Inspector General Mansfield is released from the duty of inspecting recruits, and this duty will devolve on Lieut. Col. J. E. Johnson. The greater portion of the troops destined for Utah will be concentrated at Fort Leavenworth, to be ready to leave on the arrival of Gen. Smith. The headquarters of the Second Infantry is transferred to St. Louis.
